Yesterday we had a successful opening clinic with 107 patients screened. We began surgeries today with 10 cases performed including the first Intra-Oral. We also had a visit from a patient that Karl performed surgery on last year and the results were amazing. Below are a few pictures of this child and some before and after photos of today's surgeries. The team is looking forward to performing many more life altering surgeries over the next two weeks.

Mi Mi Thu Kha comes back one year after his surgery to thank Dr. Wustrack

Happy Birthday to Becky Sneed!!!
